ABOUT THE HANFORD ADVISORY BOARD

The Hanford Advisory Board (HAB) is a nonpartisan and broadly representative body consisting of a balanced mix of the diverse interests that represent groups or communities affected by the Hanford Site cleanup mission. As set forth in its charter, the primary mission of the HAB is to provide informed recommendations and advice to the U.S. Department of Energy (DOE), the U.S Environmental Protection Agency (EPA) and the Washington State Department of Ecology (Ecology), also known as the Tri-Party Agreement (TPA) agencies, on select major policy issues related to Hanford cleanup.

The goal of the HAB is to develop consensus policy recommendations and advice to the benefit of the cleanup mission and is representative of the diverse opinions and perspectives of communities and organizations throughout the affected region.

The HAB is intended to be a component for Hanford tribal and public involvement, but not to be the sole conduit for those activities. The HAB assists the agencies in focusing public involvement. Through its open public committee and board meetings, advice on agency public involvement activities, and the responsibilities of HAB members to communicate with their constituents, the HAB assists the broader public in becoming more informed and meaningfully involved in Hanford cleanup decisions.

Board and Committee meetings are recorded and posted on the [Hanford YouTube page](#).

Scope of Issues

The primary mission of the Hanford Site is cleanup, including both waste management and environmental restoration activities.

It is recognized, however, that it will not be possible for the HAB to provide informed recommendations and advice on all Hanford policy issues, be they directly related to the cleanup mission or not. A fundamental responsibility of the HAB is to respond to requests for policy-level advice from the TPA agencies. Therefore, annually, the TPA agencies will provide the HAB with a draft work plan and consult with HAB leadership on the major policy issues on which it is anticipated the HAB's advice would be helpful.

COMMITTEES

The Hanford Advisory Board consists of the following committees, which may develop related advice for consideration by the full board. Except where noted, committee meetings are open to all HAB members and the public.

River and Plateau Committee (RAP): Considers issues related to contaminated areas along the Columbia River, institutional controls, waste importation, Hanford's Central Plateau facilities, waste burial grounds, and groundwater contamination and remediation.

Tank Waste Committee (TWC): Considers topics related to storage, retrieval, treatment, and disposal of Hanford's tank waste, supplemental treatment, tank integrity, and the Waste Treatment and Immobilization Plant.

Health, Safety, and Environmental Protection Committee (HSEP): Considers how Hanford cleanup activities and site operations affect public health, worker safety and the environment.

Budgets and Contracts Committee (BCC): Identifies and tracks Hanford's annual cleanup priorities and considers topics related to schedule, scope, cost, and funding of remediation.

Public Involvement and Communications Committee (PIC): Provides input on public involvement activities and materials. Develops means for HAB members to educate and inform the public about the HAB's work.

Executive Issue Committee (EIC): Assists the TPA agencies, facilitators, board chair, and vice chair in developing and reviewing HAB and committee agendas; coordinating HAB activities; discussing HAB issues; recommending modifications to HAB processes, guidelines, and practices; and preparing drafts of materials for HAB consideration as needed.

Committee of the Whole (COTW): Some Hanford topics span the scope of multiple committees or are too complex for one committee to tackle. When this situation occurs, a COTW can be suggested either at the HAB or committee level.

MEETINGS

The TPA agencies will support regular and special meetings of the HAB and its committees.

All HAB meetings are open to the public and will include time for public comment, except where noted.

The board and committees will meet regularly throughout the year except for July. The board will have a leadership workshop in the spring to discuss the next year's draft work plan and calendar, as well as other items important to the HAB's operations and processes.

During full board meetings, primary members (or alternates when the primary member is not present) may participate in the consensus building process on draft advice provided a quorum is reached. Board meetings will be announced with a Federal Register notice.

- **Board meetings** are generally two-day meetings.
 - Board meeting Day 1 will be 1 – 4 p.m. and 5 – 8 p.m. The intent of the evening component is to improve meeting accessibility for board members and the public to hear and respond to agency updates and presentations.
 - Board meeting Day 2 will be from 9 – 11 a.m. and 1 – 4 p.m. (if needed) for discussion of board business.
- **Committee of the Whole** meetings will be twice annually in a hybrid format as appropriate, normally 9-11 a.m. and 1 – 4 p.m. to discuss Site cleanup priorities, the DOE 5-Year Plan and EM 10 Year Strategic Vision, or other topics
- **Committee meetings** will be held quarterly in a hybrid format as appropriate normally, 9 – 11 a.m. and 1 – 4 p.m.
- **Issue Manager meetings** and committee meeting planning calls will be held as needed
- **Committee Leadership calls** are held the last Wednesday of most months to discuss preparations for future meetings

Calls or meetings may be added, cancelled, or rescheduled as needed.

Updates to the calendar will be in highlighted red text.

The following topics and briefings are anticipated to be presented during FY2023. Topics and presenters are subject to change based on availability and events. Emerging issues may be added to the work plan with the agreement of the EIC and TPA Agencies.

Note: The board member from the Oregon Department of Energy did not oppose the content but abstained from being considered for consensus because of objection to the process used to determine quorum for this work plan and calendar. Stakeholders not eligible to vote because of not having a current appointment include Hanford Challenge, Non-Union, Non-Management Hanford workforce (1 of 2 seats) and public at large stakeholders (4 of 10 seats).

WORK PLAN

Briefings should answer the following questions:

- 1) Are there decisions or milestones coming soon?
- 2) What is the project schedule, or do you expect delays?
- 3) Is there funding to complete the project?
- 4) Are there opportunities for Board input?
- 5) What is the risk/benefit?
- 6) Is there an environmental justice aspect being addressed?
- 7) How does this project support the overarching One Hanford Site vision?

There may be additional specific questions provided.
